

limbic|services

When you need **instructional design services** you need someone you can trust to create content that's both meaningful and engaging.

That's where we come in...

LIMBIC Learning comprises a small group of like minded Learning Architects, each with over 10 years' frontline experience in designing and creating e-learning and blended learning solutions.

Each Learning Architect has significant experience in a number of industries, for example defence, engineering, financial services, healthcare, pharmaceutical, and central government.

Working in partnership with a Learning Architect **guarantees** you have someone with the right mix of knowledge, skills, and experience to give your organisation the best solutions. We really do hit the ground running.

Your Learning Architect can:

- design e-learning and blended courses
- storyboard and script e-learning content including full media briefs
- set up processes
- oversee a team
- run projects

In fact, the list is endless. All you need to do is think about which tasks you want us to handle, and for how long, and we can then talk business.

Who's
your
learner?

Why LIMBIC?

Instructional design is part of our **on demand** service offering. It provides you with a new and better alternative to using a recruitment agency or sifting through CVs and interviewing freelancers. We deliver unbeatable quality at an unbeatable price.

Guaranteed capability - Why take the risk of bringing onboard someone who lacks expertise? Your Learning Architect will prevent costly mistakes through in depth and proven capability.

Speed of execution - Why take the risk of waiting weeks and weeks and still be unsure? Your Learning Architect will be available in a matter of days, and will deliver in a shorter time.

Peace of mind - Why take the risk that things may not work out as you'd hoped they would? Your Learning Architect has access to a breadth of expertise and works to the highest standards of quality control.

Would you like LIMBIC to help **you** deliver bottom line results?
